

Revision Checklist – Paper 2 (Human Geography)
Section 3 Option B: Population and the Environment

Topic		Notes	😊	😐	😞
Context					
1.1	Key elements in the physical environment				
1.2	Key population parameters				
1.3	Development processes				
1.4	Global patterns of population				
Environment and population					
2.1	Patterns of food production and consumption				
2.2	Climatic types				
2.3	Zonal soils				
2.4	Food security strategies				
Environment, health and well-being					
3.1	Global health patterns				
3.2	Relationship between environment and disease				
3.3	Case Study of a prevalent transmitted disease				
3.4	Case Study of a non-communicable disease				
3.5	Role of NGOs in promoting health and fighting disease				
Population change					
4.1	Factors in natural population change				
4.2	Models of natural population change				
4.3	Causes and effects of international migration				
Population ecology					
5.1	Population growth dynamics & overpopulation				
5.2	Population, resources and pollution model				
5.3	Malthusian, neo-Malthusian and alternate viewpoints				
Global population futures					
6.1	Health impacts of global environmental change				
6.2	Prospects for the global population				
6.3	Future population-environment consequences				
Case Studies					
7.1	A country experiencing mass population change				
7.2	A local area to analyse the place and health
